To request a new player on your roster, please complete the following details.

Please do not just guess or make up email addresses or sports engine reference numbers. If you don't know them, contact your club administrator or the EDCSA. It is particularly important that you do not reuse the SE reference number of another player. These references are unique and will clash with existing players if not entered correctly and will lead to delays processing your requests.

Some/all players still show as 'outstanding requests'. How do I get them approved?

We will need a copy of your Ontario Soccer roster to confirm that each player is registered to the team they've been added to. **Once you've added your players to the Coliseum website, please email your team's Ontario Soccer roster to elliott@coliseum.ca**

We will do our best to have them approved within 72-hours. This must be done by no later than Tuesday, October 27.

Once a player is approved, the parent/guardian will receive an automated email from the Coliseum inviting them to accept the team assignment. Accepting the team assignment is strongly encouraged but not required.

Once a player has been approved, they are eligible to play, and their name will be printed on that team's gamesheet going forward.

Our players have not been approved in Power Up yet.

For any issues regarding players that haven't been approved in Power Up, ask your club representative to follow up with Eastern Ontario Soccer (EOS).
